MISC

Education: None (incomplete higher education, Moscow State University, CS facility).

Languages: English (Intermediate or Upper-Intermediate, approx. at B2 CEFR level.), Russian (Native).

Interests: Music (blues harp, CBG), painting, sports, biking, skateboarding, hiking, programming, IT, science.

BRIEF INFO

My name is Igor and I'm a professional front-end developer with 8 years of experience, recently specializing mainly in React, NextJS, NodeJS and Python (with Flask and Django).

I've been involved in creating various types of web applications and sites: from complex dynamic web applications (sometimes with a backend) to static landing pages, developing applications for embedded browsers (below ES5) and vanilla JS, creating ui kits, reusable libraries, and optimizing performance across a variety of devices and browsers, always creating responsive and adaptive layouts by default (on the principle of «mobile first») — as an independent developer, and as a part of various teams.

WORK EXPERIENCE

Frontend Web Developer

360caster

Feb 2023 - Present / remotely.

Developing startup project for interactive museums' 3D tours platform. (NextJS, mobx, MUI, SCSS, Mediasoup, proprietary 3D tools, Eleventy)

Frontend Web Developer

Steor LLC

Apr 2022 - Jan 2023 / St.Petersbourg, Russia (remotely).

Participation in the team development of navigation systems for ship control, navigation situation, communication between ships and control systems. (OpenLayers, PrimeReact, NodeJS, React, Webpack, Redux, Webpack, SCSS)

Frontend/Fullstack Web Developer

PrintXPert (ARTI development division)

Mar 2019 - Sep 2021 / Moscow, Russia.

Development of embeddable MFU interface, web administration client, middleware NodeJS server. (React, Redux, Bootstrap, vanilla js for embeddable interfaces, Express, NodeJS)

Frontend Web Developer

Axiomica

Aug 2018 - Nov 2018 / Moscow, Russia.

A startup MVP application for conducting surveys, collecting and processing data. (i-bem, React, MUI)

Frontend/Fullstack Web Developer

Engineering Bureau «Vektor»

Mar 2016 - Aug 2018 / Moscow, Russia.

Design and development of interfaces of complex navigation systems. Development of a web version of the system of online monitoring of objects on the ground. (SPA project based on i-bem, bem-xjst stack, participation in development of PHP midware server)
